

SAFE AND SOUND HAND AND SURFACE SANITIZER

INTRODUCTION

Safe and Sound Sanitizer is an effective product that has been formulated to expressly meet the FDA Guidelines, updated on April 15, 2020. It eliminates pathogens found on human skin and surfaces. Alcohol-based antiseptics provide a sanitary method of killing germs without the need for water.¹ Additionally, alcohol-based sanitizers have been found to be a more effective treatment against certain types of bacteria and viruses on contaminated hands as compared to other methods of sanitation². Therefore, this product offers convenience and optimal protection against germs/pathogens.
